

Olivia Scott

This is to all of you veterans
we all owe you a thankyou
but why don't we start
right here, right now
this is a big thankyou
for everything you did for our country
you put your lives on the line
like many others
you went out there and fought
you represented our country
and now its time
for the country to represent you

this is VE day
victory over Europe
v-e-d-a-y
then, our country went and fought
now, our country stands together
thanking all who thought

my great grand-dad was captured in world war 2
he lived in Poland at the time
he owned a shop full of food
and took part in secret meetings
which didn't go very well
as the Germans came and captured him
he was in political prison
until they moved him to Auswtiz
the deadliest concentration camp
where he was cutting others hair
which is why he survived
later on, the Germans left
so he walked for 8 days
and made it back home

this is VE day
victory over Europe
v-e-d-a-y
then, our country went and fought
now, our country stands together
thanking all who thought

this is our final thankyou
for everything you did
you will never be forgotten
but cherished in our hearts
