

Stanborough

Mathematics & Computing Academy

Headteacher: Mrs M John

July 2021

Dear Parent / Carer

Following the recent survey we carried out with all of our parents/carers regarding the future of Parents' Evenings, the results showed us that the majority (71%) of respondents wanted to keep the online format.

As a result of this, the online Parents' Evenings will continue for the academic year 2021-2022.

We have looked closely at the comments that were made in this survey. We will endeavour to minimise the technical issues that some parents have experienced, but it does seem that the majority of parents do not have any issues.

Increasing the time of meetings from 5 minutes is also not possible, as this would limit the number of students a teacher could meet with and could mean that they are not able to see the entire class. All staff emails are shown on the school website and further contact can be made if parents feel a follow-up conversation is necessary following the Parents' Evening.

We will review this decision on an annual basis.

Thank you very much for your on-going support.

Yours faithfully

Mr T Braybrook
Deputy Headteacher
