This event highlights Higher Education opportunities and offers information about Universities across the UK.

Click on the link above to register.

**Skills Builder**  
PARTNERSHIP

**One universal framework for essential skills**

Each half term we will be concentrating on one particular skill which will be highlighted in each subject to reflect how that skill maybe used in conjunction with a career.. Over a period of time students will develop and strengthen essential skills for their future careers. This half term we are focusing on Listening. Listening effectively to receive information, listen to others, receiving instructions, remembering instructions and understanding why others are communicating with us.
