## DATES FOR YOUR DIARY

Friday 22<sup>nd</sup> – Half term starts at 3pm!

November Reminders!

Weds 3<sup>rd</sup> Nov – H&C theory mock

Fri 5<sup>th</sup> Nov – art all day mock

Jake Parker created Inktober in 2009 as a challenge to improve his inking skills and develop positive drawing habits. It has since grown into a worldwide endeavour with thousands of artists taking on the challenge every year.

Have a go yourself at home with your own inky pens! Draw lightly first with your pencil then use your pen to fill in the tone! You could use tonal shading, stippling, or hatching!

Give ink art a go - click here!

# STUDENT SHOUT OUT!

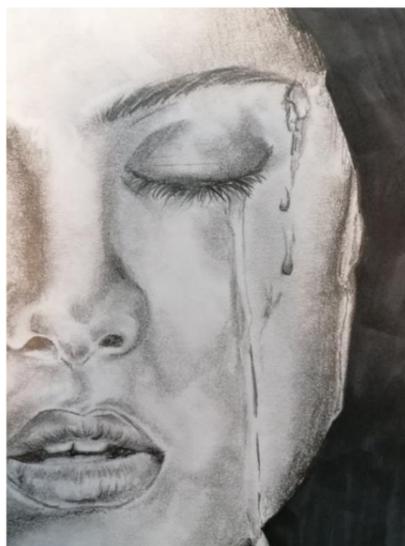

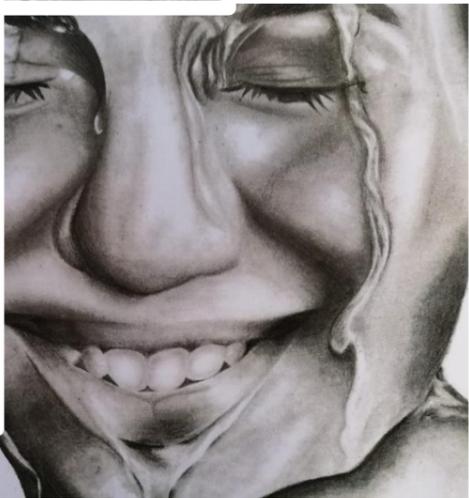

Want to draw your own water droplet? Have a go here!

Water is a difficult source to draw. You need to smooth out large surfaces of pencil tone while contouring certain edges. It is a style that takes time and practice – but our year twelves haven't let that stop them! A huge well done to Jessica, Aimee, Megan, Elitsa, Tianna, Chloe, Megan, Liana, Shenell, Florence, Martyna, Izzy, and Charlie! A brilliant start to the year!

H<sub>2</sub>O yeah!

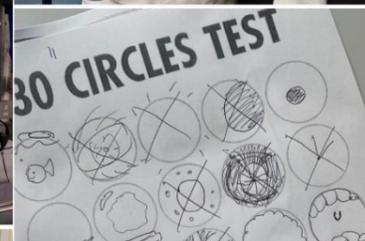

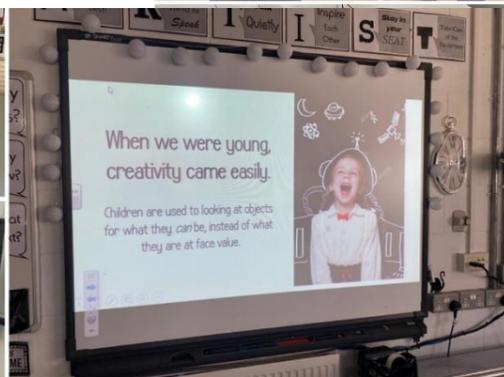

## Texture page

Year 9 art have a reason to celebrate this weekend, they've turned in their first completed sketchbook page! The group have experimented with stippling, tonal shading, hatching and PVA glue sculptures to name but a few techniques. Well done to all our hardworking students!

## Art's Mark

In support for our school arts mark accreditation, we have been running an enrichment program for year 12 to explore creativity in the world of work.

It is scientifically proven that creativity drastically decreases as we age, so these sessions provide students with the opportunity to be divergent thinkers.

# ART IN THE NEWS WOW!

## Black art magic

October is black history month, which is a great time to spotlight how diverse this year's Saatchi new artist of the year award! Follow them on Instagram using the handles above their photos.

These exceptional finalists will exhibit their work at the Robert Walters Group – check out @robertwalterslife and

## Banksy's sold again

“Three years ago, almost to the week, one of Banksy’s Girl with Balloon paintings was half-shredded by remote control during a live auction at Sotheby’s in London. According to the catalogue listing, the painting had been “executed in 2006” and given by the artist to the consignor, who, it was believed, was Banksy’s publicist Jo Brooks.” [Read more on the arty newsletter](#)

## -Thank you-

A big thank you to all the new students who are saying hello and catching up on missed work. We're looking forward to the fun in next term's lessons!

## SHOW OFF YOUR ART!

Wow! I've been spoilt for choice this week! Well done and thank you to everyone who came to show me your artwork!!

# SWITCH OFF ZONE!

Mental Health Awareness

## Pumpkin Carving!

It's spooky pumpkin carving season! This is my favourite season because it's the perfect time to get comfy, put on some good music, and get crafty! Pumpkins are quite cheap this year – They're sold in all large supermarkets. If you cannot get a pumpkin, then don't despair – you can use red and orange peppers too! In fact, this is easier to carve... and you don't need a large knife to make the cuts!

Send me your carvings!

Free pumpkin printable stencils!

## Tasty Treat Time!

Cinder toffee edition

- 500g **caster sugar**
- 225g **golden syrup**
- 2 **teaspoons vanilla extract**
- 90ml **water**
- 1 **tablespoon bicarbonate of soda**

1. Grease a 20x30cm tin, then line the bottom and sides with baking parchment, making sure the parchment sides are at least 5cm above the sides of the tin. Grease the parchment with a little butter or oil.
2. Add sugar, golden syrup, vanilla, and water to a deep, heavy bottomed saucepan. Bring the mixture to the boil, but do not stir. Boil until it reaches the hard crack stage (the temperature on a sugar thermometer reads 149 - 154 degrees C), about 10 minutes. During boiling, if there are any sugar crystals on the sides of the pan, brush the sides of the pan with a clean pastry brush dipped in water.
3. Remove from heat and working quickly, add the bicarb, whisking to incorporate. The mixture will bubble when adding the bicarb, so mind the hot toffee. Immediately pour into the prepared tin. Let cool and set completely before touching. Break into pieces and serve. Store at room temperature in an airtight container.
