

Stanborough

Mathematics & Computing Academy

Headteacher: Mrs M John

October 2021

Dear Parent/Carer,

**Welwyn & Hatfield 14-19 Consortium**

As you will be aware, Stanborough is hosting its Post 16 Information Evening on Thursday 4<sup>th</sup> November. At the evening, one aspect of the course provision that will be imparted to you is the fact that Stanborough does not offer all subjects and that some courses are offered at other Consortium schools. To ensure that our students are able to make an informed decision about such courses, we are hosting an additional Consortium Subject Information Evening on **Thursday 11<sup>th</sup> November at Bishop's Hatfield Girls' School between 6:00pm – 7:30pm.**

A member of staff will be representing each consortium subject and will be available to be spoken to throughout the evening. The evening will finish promptly at 7:30pm so please ensure you arrive by 6:00pm to allow enough time to speak to the subject representatives.

We hope that you will accompany the students and be fully involved in the 'Moving on' process into Post-16 learning.

In addition to subject teachers, Heads of Sixth Form for each school will be present.

Please allow adequate time for parking as spaces on site are limited. If you have particular access requirements, please inform your child's Head of Sixth Form to enable us to make appropriate arrangements.

Yours faithfully,

Mrs Z Armitage  
**Deputy Headteacher**

Mr W Maidment  
**Post 16 Leader**
