Headteacher: Mrs M John

November 2021

Dear Parents/Carers

The HCC Services for Young People (SfYP), Young People's Survey 2021 is now available for young people to share their views. The survey is an opportunity for young people aged 11-17, and up to the age of 25 for those with special educational needs to have their voices heard and follows on from our previous countywide survey conducted in 2019.

Executive Member for Children, Young People and Families County Councillor Teresa Heritage said:

"We know that young people have been heavily impacted by the Covid19 pandemic. We want to hear from young people themselves about their concerns so that we are able to support them in future. Hearing young people's views will help us to plan for the year ahead."

Young people have been heavily impacted by the Covid-19 pandemic and this survey will help determine if the concerns and priorities for young people have changed since the start of 2019; and further inform and develop our own service priorities as well as the priorities of partners through the Youth Strategy Partnership Groups across the county.

There are two surveys, which are both open until the 17th December 2021 and can be accessed through the links below.
