Mathematics & Computing Academy

Headteacher: Mrs M John

July 2022

Dear Parent/Carer,

**Year 11 Mock Examinations 17.10.2022 – 4.11.2022**

Mrs Daplyn wrote to you earlier this term to outline a range of initiatives and suggestions to support students in their final year of Key Stage 4. For any students who wish to plan ahead to help feel in control of the next ten months, I am writing to share with you the timetable of the first set of Mock Examinations for Year 11. We know that some students might find receiving this information at this stage overwhelming and you may choose to put it aside until September. Please support students to use this timetable in the way you feel will best support them.

These examinations are an essential part of preparation for the GCSE examinations. They give subject teachers an opportunity to assess your child's current knowledge and understanding of each subject, the progress they have made since the last mock exams in April/May 2022 as well as how they perform under exam conditions.

The results of these assessments will help us to arrange for targeted support and intervention to address areas in need of development, as well as provide initial information on foundation and higher tier entries for the final exams in Maths, Languages and Science.

Students will be issued an individual Mock Examination timetable at the end of the first half term, which will also provide further information on roomings and Access Arrangements (if applicable). If you have any questions about these examinations, please do not hesitate to contact me on [DKohls@stanborough.herts.sch.uk](mailto:DKohls@stanborough.herts.sch.uk).

Yours faithfully

Ms D Kohls  
Deputy Headteacher
