Headteacher: Mrs M John

November 2022

Dear Parents/Carers

Young People's Health and Wellbeing Survey

This month Hertfordshire County Council and partners are running their annual anonymous online survey across secondary school aged students in the county. The aim of this survey is to help them to plan services and support for young people.

Schools with sufficient numbers of students completing the survey will receive a report containing details of the results of the survey and how they compare to the county average. All student contributions are anonymous and it is made clear within the survey that students can skip any questions they do not wish to answer.

The link to this survey can be found below.

Please note the survey will be live for students to complete from Monday 21st November and will close on Friday 16th December.

[Young People's Health & Wellbeing Survey \(hertshealthevidence.org\)](https://hertshealthevidence.org)

As a school, we would like to encourage your child to submit their responses as this will enable us to ensure we are providing the correct support as identified in the report from County.

Should you require further information please contact yphws@hertfordshire.gov.uk or myself edaplyn@stanborough.herts.sch.uk.

Yours faithfully

Mrs Daplyn
Assistant Headteacher
