Such information will only be processed to the extent that it is lawful to do so and appropriate measures will be taken to keep the data secure.

We also process biometric data about students to support school systems eg cashless catering. Please see our Data Protection Policy for more details about how we process biometric data.

Collecting information

Whilst the majority of student information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with the UK GDPR, we will inform you whether you are required to provide certain student information to us or if you have a choice in this. Where appropriate, we will ask parents/students for consent to process personal data where there is no other lawful basis for processing it, for example where we wish to use photos or images of students on our website or on social media to promote school activities or if we want to ask your permission to use your information for marketing purposes. Parents/students may withdraw consent at any time.

When students are deemed to be old enough to make their own decisions in relation to their personal data, we will also ask the student for their consent in these circumstances. This will usually be around the age of 13. Although parental consent is unlikely to be needed, we wish to take a collaborative approach, so we will keep parents informed when we are approaching students for consent up to the age of 13. Students with the maturity to make their own decisions about their personal data may withdraw consent if consent has previously been given.

In addition, the School also uses CCTV cameras around the school site for security purposes and for the protection of staff and students. CCTV footage may be referred to during the course of disciplinary procedures (for staff or students) or investigate other issues. CCTV footage involving students will only be processed to the extent that it is lawful to do so. Please see our CCTV policy

for more details.

Storing data

We hold student data securely and have appropriate security measures in place to prevent personal information from being accidentally lost, or used or accessed in an unauthorised way. Access to information is limited to those who have a business need to know it and who are subject a duty of confidentiality. A significant amount of personal data is stored electronically, for example, on our MIS database. Some information may also be stored in hard copy format.

Data stored electronically may be saved on a cloud based system which may be hosted in a different country.

Personal data may be transferred to other countries if, for example, we are arranging a school trip to a different country. Appropriate steps will be taken to keep the data secure.

We also have procedures in place to deal with any suspected data security breach. We will notify you and any applicable regulator of a suspected data security breach involving your data where we are legally required to do so.

When a student moves to another educational setting or school phase, the vast majority of information that we hold will move to that setting, although we may need to retain a certain amount of personal data, as laid out in our Data Retention Policy.

Where we act as the final setting in a student's education, we are required to retain some personal information for a period after they have left. Typically that information will be retained until they reach the age of 25, after which it may be archived or securely destroyed. There may be reasons for retaining data longer than this, which are laid out in our Data Retention Policy and Schedule.

In some circumstances we may anonymise your personal information so that it can no longer be associated with you, in which case we may use such information without further notice to you. Once you are no longer a student we will retain and securely destroy your personal information in accordance with our Data Retention Policy.

Who do we share information with?

We do not allow them to use your personal data for their own purposes, and we only permit them to process your personal data for specified purposes and in accordance with our instructions

In the event that we share personal data about students with third parties or data processors, we will provide the minimum amount of personal data necessary to fulfil the purpose for which we are required to share the data. Where necessary, we will carry out a Data Protection Impact Assessment (DPIA) to assess any risks involved.

Aged 14+ qualifications

For students enrolling for post 14 qualifications, the information you supply is used by the Learning Records Service (LRS). The LRS issues Unique Learner Numbers (ULN) and creates Personal Learning records across England, Wales and Northern Ireland, and is operated by the Education and Skills Funding Agency, an executive agency of the Department for Education (DfE). The LRS will give us a student's ULN and may also give us details about the student's learning or qualifications. Youth support services

Students aged 13+?

Once our students reach the age of 13, we also pass student information to our local authority and/or

provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

The information shared is limited to the child's name, address and date of birth. However where a parent or guardian provides their consent, other information relevant to the provision of youth support services will be shared. This right is transferred to the child / pupil once they reach the age 16.

Students aged 16+

We will also share certain information about students aged 16+ with our local authority and/or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- post-16 education and training providers;
- youth support services;
- careers advisers.

For more information about services for young people, please visit our local authority website.

The National Student Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about students in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our students to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Students) (England) Regulations 2013.

To find out more about the student information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-student-database-user-guide-and-supporting-information>.

The department may share information about our students from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The DfE has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data;
- the purpose for which it is required;
- the level and sensitivity of data requested; and

- the arrangements in place to store and handle the data.

To be granted access to student information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

Requesting access to your personal data

Under data protection legislation, students, and in some circumstances, parents, have the right to request access to information about them that we hold ("Subject Access Request"). From the age of 13, we generally regard students as having the capacity to exercise their own rights in relation to their personal data. This means that where we consider a student to have sufficient maturity to understand their own rights, we will require a Subject Access Request to be made by the student and not their parent(s) on their behalf. This does not affect any separate statutory right parents might have to access information about their child.

Subject to the section below, the legal timescales for the School to respond to a Subject Access Request is one calendar month. As the School has limited staff resources outside of term time, we encourage parents/students to submit Subject Access Requests during term time and to avoid sending a request during periods when the School is closed or is about to close for the holidays where possible. This will assist us in responding to your request as promptly as possible. For further information about how we handle Subject Access Requests, please see our Data Protection Policy.

Parents of students who attend academies have a separate statutory right to receive an annual written report setting out their child's attainment for the main subject areas which are taught. This is an independent legal right of parents rather than a student's own legal right which falls outside of the UK GDPR, therefore a student's consent is not required even if a student is able to make their own decisions in relation to their personal data, unless a court order is in place which states otherwise.

The term "parent" is widely defined in education law to include the natural or adoptive parents (regardless of whether parents are or were married, whether a father is named on a birth certificate or has parental responsibility for the student, with whom the student lives or whether the student has contact with that parent), and also includes non-parents who have parental responsibility for the student, or with whom the student lives. It is therefore possible for a student to have several "parents" for the purposes of education law.

You also have the right to:

- object to processing of personal data that is likely to cause, or is causing, damage or distress;
- prevent processing for the purpose of direct marketing;
- object to decisions being taken by automated means;
- in certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- claim compensation for damages caused by a breach of our data protection responsibilities.

We will always seek to comply any requests regarding your rights, however please note that we may still be required to hold or use your information to comply with legal duties.

For further information about your rights, including the circumstances in which they apply, see the [guidance](#) from the Information Commissioners Office (ICO) on individuals' rights under the UK GDPR.

We have appointed a data protection officer (DPO) to oversee compliance with this privacy notice.
