

Stanborough

Mathematics & Computing Academy

Headteacher: Mrs M John

17<sup>th</sup> March 2023

Dear Parent/carer

Ahead of the Year 10 mock exams after Easter, we have contacted Elevate Education to come in and do a session for an hour in the hall with all Year 10 pupils. This will be running on Tuesday 21<sup>st</sup> March during period 2/3. Students will only be present for one of the sessions, which session will be relayed to them in tutor time on Monday – their class teacher will also be responsible in bringing them to the hall.

Elevate Education is an online and live study coach to support and help, students, parents and teachers in the most efficient way to revise and study. Their website offers support in specific subjects and includes resources such as a study timetable and apps which can aid revision and support staying off social media during study sessions. They also have like webinars for parents and students which you are able to watch at your leisure from this link: [Programmes | Elevate Education](#).

If you have any further questions please do not hesitate to contact Mrs Vlijter or myself.

Yours faithfully

Miss G Eracleous  
Acting Year Leader: Year 10
