‘Creative Confidence’

by Tom Kelley & David Kelley

This book is the work of brothers that are founders of an influential design and innovation company IDEO. The authors believe that anyone is capable of being creative. You just need to learn how to tap into that creative potential within you. They share stories from their experiences running IDEO throughout the book but more importantly, they shared this knowledge down into practical strategies. This book will affect both your personal and professional life. It does this by teaching you how to unleash and harness your creativity.

Stolen Van Gogh Painting Worth Millions Turns Up in IKEA.

A Vincent van Gogh painting stolen from a museum in the Netherlands has been returned to an art sleuth in an Ikea bag. Thieves smashed glass windows during an overnight raid to take the 1884 artwork. The artwork has “suffered” but at first glance it is still in good condition. The artwork will go under scientific examination over the next couple of weeks in the attempt to find the thieves.

More information here:
