

Stanborough

Mathematics & Computing Academy

Headteacher: Mrs M John

19th January 2026

Dear parent / carer

At Stanborough we understand the importance of the work students do outside of lessons, be this at home or in school. Working effectively outside the lesson helps students to consolidate the work they have done in lessons and to develop and enrich their understanding. One way of achieving this is through revision books. Therefore, at this crucial time, we have compiled a list of revision books that would support your child's revision and preparation for their GCSEs.

If you wish your child to have these revision books, they are available to purchase via Arbor.
If you have forgotten your password please select the forgotten password link or <https://login.arbor.sc./auth/resetpassword>. Please note that payments may not be accepted after the deadline date.

The deadline for payment is the **2nd February 2026**. The books will be ready for collection from the Finance office before the half term to ensure your child is supported for their final mock examinations. If you feel that you need financial support in the purchase of these books, please do not hesitate to contact myself.

If you have any further questions, please do not hesitate to contact me at Stanborough.

Yours faithfully,

Mrs Abrahams
Assistant Headteacher
