

Stanborough

Mathematics & Computing Academy

Headteacher: Mrs M John

2nd June 2026

Dear parent/ carer

On June 29th 2026, the Science Department are launching our first ever STEM Day for our year7 students. This exciting event will give them the opportunity to explore the themes of STEM (Science, Technology, Engineering and Maths) through all aspects of designing, building and racing a model motorised race car.

Final products will be on display during the last period of the day where students will have the opportunity to take part in a car 'race' and evaluate each other's cars. Parents and carers will be able to see all the designs featured in The Stanborough Times.

Students will be off normal timetabled lessons for half of the day.

To help provide materials for the running of the event we are asking for a voluntary contribution of £2.00 towards the cost of material.

If you wish to make a voluntary contribution of £2.00, this should be made via Arbor, School Shop. If you have forgotten your password, please select the forgotten password link: <https://login.arbor.sc/auth/resetpassword>.

We greatly appreciate your support in the running of this activity. If there are any queries regarding this event, please do not hesitate to contact me.

Yours faithfully

Ms M Wilson
